Smart Juicer **MOTIV 1**

Smart Juicer Line

100% natural Juice without additives

Low Speed Cold-Pressed Juicing Module
Minimizes nutrient damage, and preserves the original flavor of ingredients.

A Bigger and Simpler 82mm Flip Gate

Bigger 82 mm Feeding Chute
Simpler Flip Gate

Stable Structure for Accurate Measurement

Easy and Convenient Ergonomic Design
One-Touch Pop-Up System

Premium Line

Kuvings Evolution Cold Press Juicer EVO820

The New O shape flap gate Whole Slow Juicer

1. The New O shape flap gate
2. Wider 82mm Feeding chute
3. Leather Pattern New Design
4. Reinforced drum lid
5. Upgraded 5th generation drum
6. Easy washing of pulp outlet
7. Safe flap gate system
8. Application of Citrus module
9. BPA-FREE Tritan for the environment and health

WHOLE SLOW JUICER C7000

Classic Line

76mm(3 inches)-wide feeding tube accommodating whole ingredients.

1. Upgraded Juicing Screw(auger).
2. Simplified parts makes cleanup easier.
3. 3 in 1 Multi-Function (Juice, Smoothie, Sorbet).
4. Newly designed smart cap with metal finish.
5. Slow-squeezing juice extractor.
6. A rotating cleaning brush for easier cleaning.
7. Smart Cap for combining juices and preventing leaks.
8. Safety-lock & Cooling system.
9. Quiet operation.

VACUUM BLENDER SV-500

Healthier lifestyle within a vacuum

1. The Magic of a vacuum
2. 3.5 peak HP Powerful Motor
3. Noise Reduction Cover
4. Vacuum tumbler (Additional components)
5. One-touch auto button (vacuum/auto/auto blending)
6. My Variable Speed (RPM) Control
7. Eco-friendly tritan container (BPA-Free)
8. Safety systems
9. Triple 3D Moving Blades

POWER BLENDER KPB-351

Intelligent Power Blender operates automatically at the optimal blending speed.

1. Auto-blending function
2. Variable speed dial (setting of 1-10)
3. Control Setting (Smoothie/Juice button)
4. One touch menu buttons with presets
5. Power motor with 3.5 peak HP
6. Triple 3D Moving Blades
7. Safety systems
8. Eco-friendly BpA-free Tritan container
9. Air cooling system

Hands - Free Slow Juicer

AUTO 10

1

Safety Fastening Structure

It is designed to operate only when the automatic container and drum are securely fastened. It provides a safer juicing environment.

2

World First 3,000cc Auto Hopper

It is possible to extract a large amount of juice at once by applying the world's largest capacity 3,000cc class auto hopper.

3

Additional feeding chute

An additional feeding chute is applied to the center of the auto hopper lid, to add additional ingredients during juicing.

CITROCASA Fantastic F/SB **ADVANCE**

Elegance coupled with competitive advantage.

The new standard in self-service.

The Fantastic F/SB will win you over with its care-free and super-efficient operation and will save you money. Its the perfect match for grocery stores and self-service restaurants.

- Automatic fruit feeding
- High-capacity fruit hopper (17 kg / 37 lbs)
- Activate juicing just by pushing the self-service tap
- Large digital display with counter for squeezed fruits
- Minimum space requirement (footprint)
- Fast juicing (2 liters per minute / 0.5 gallons per minute)
- Double Cover System and Cross Holder
- SCS Up & Down Cutting System
- Easy and user-friendly operation
- The MTS (Manual-Transport-System) keeps the sieve clean
- Intelligent stop when peel container is full
- Adjustable base plate for easy installation

CITROCASA 8000 SB **ADVANCE**

Self-service so easy!

Combine the highest capacity with the finest fruit enjoyment.

Sturdy and reliable, the 8000 SB for self-service.

- High-capacity stainless steel fruit hopper and rotation plate for 21 kg (46.2 lbs) of oranges
- Machine starts when pressing the tap
- Large digital display with counter for squeezed fruits
- Ideal for Stand-Alone-Solutions
- SCS Up & Down Cutting System
- Double Cover System and Cross Holder
- The MTS (Manual-Transport-System) keeps the sieve clean
- Intelligent stop when peel container is full.

extraction

A perfect mechanism inside and outside

SHORTER AND FOLDING HOPPER WITH BUILT-IN PUSHER

The built-in pusher helps work **fast, safely and hygienically**, thus reducing the action area to 25 cm, and making it easier to load with just one hand.

SMART POWER

Pusher with force multiplier lever to optimise the crushing process.

Its **Brushless Motor** provides the greatest torque at any speed, adapting its capacity to the different types of fruit and vegetables, achieving time and consumption saving.

BRUSHLESS
MOTOR

4.3

BUILT-IN
PUSHER

Up to
30 GAL/H
110 L/H
capacity

JUICE COLLECTION

It filters and eliminates undesired particles and preserves the newly pressed juice in the best conditions thanks to its **tray with non-drip valve** and **3 gal | 11 l capacity tank**.

4 preset programs, 4 custom programs

Soft fruit

Hard fruit

Greens

Mix

Custom

CENTRALIZED CONTROL PANEL

Real time control of all parameters from the operation area, **shredding and pressing speed, pressing times and cycles** through the control panel with **4.3 full-colour touch screen**.

CHOOSE YOUR WORKING METHOD

Manual or semi-automatic

Use the different programs designed to improve its use, save time and obtain maximum performance.

Choose from among the different programs: soft fruit, hard fruit, green leaf vegetables, mix. Or configure your mode of use by **customising the times and pressing speed and number of cycles**.

MASTERY ACCESSORIES

2 High efficiency press plates

3 Bags, one fine, one medium and one thick

4 Shredder discs

1 Tank with filter

1 Cleaning kit with 2 brushes and scraper

Goodnature™

X-1 *mini*

PATENT NO. 9,844,229, B2. OTHER PATENTS PENDING.

Goodnature

JUICE

MAXIMUM NUTRIENTS

Minimal heat is applied in the extraction process, retaining valuable enzymes and vitamins

REFRESHINGLY CLEAN FLAVOR

With a crisp taste, cold-pressed juice wins most taste tests

LONGER SHELF LIFE

Nutrients are preserved for an extended period of time

HIGHER YIELD

A juice press extracts 20%-30% more juice from the same fruits and veggies, creating less waste

VS

Centrifugal

JUICE

BREAKS DOWN QUICKLY

Centrifugal juice starts to separate within minutes of extraction

PULPY & CHUNKY

Juice has high solid content – resulting in a thicker and inconsistent mouth-feel

Cold-pressed juice has worked its way into thousands of peoples daily lives because they value its superior nutritional content and better taste when compared to other types of juice. Consumers also value juice thats made fresh. In fact, 89% of people report they would pay more for fresh juice than for juice that was made yesterday.

Until now, there hasnt been a commercially viable way to produce cold-pressed juice in front of your customers. The X-1 Mini is a complete, compact, cold-press system thats perfect for juice bars, cafes, restaurants, and grocery stores that are seeking a clean and easy way to make batches of cold-pressed juice front-of-house. The same great juice as our world-renowned X-1, now in a smaller package.

PRODUCE UP TO
40-60 Bottles
PER HOUR (12 OZ SERVINGS)

TRUE *Cold Pressed* TECH

A true cold-press is a two step process cutting the fruit and vegetables to expand the plant cells, then gently, but firmly, applying enough pressure to extract all of the nutrient dense juice that nature has provided for us.

— A — **CLOSED** *System*

Our new G2 Cold-Press System has no dangerous pinch points and allows for minimal exposure to air, utilizing our closed pressing system. The safest and most sanitary juicing system available.

2ND *Generation* JUICING

Forty years after Dale Wetlaufer founded Goodnature, we are proud to announce our G2 Cold-Press System. With upgraded grinding and pressing innovations, you can now process a wider variety of fruit and veggies in the cleanest, safest, most efficient way possible.

Goodnature

X-1

THE MOST POPULAR JUICE PRESS IN THE WORLD

*The Goodnature X-1
Commercial Cold Press Juicer*

↑
67"
↓

THE JUICE PRESS THAT WORKS AS HARD AS YOU DO.

The X-1 is a professional juicer capable of producing a thousand bottles of juice per day. Now in its third generation, the X-1 is used by successful cold-pressed juice producers, nut milk producers, and cider producers in more than 60 countries.

**MADE WITH CARE
IN BUFFALO
NEW YORK, USA**

**WORLDWIDE
